DVD

- ➔ Introduction for Store Managers
- ➔ Five Video Lessons for Associates
- ➔ Locally-Produced Specialty Crops Video

...all in one package!

A Food Safety Training Program

The Pathway to Food Safety program is brought to you by Ohio State University Extension and the Ohio Grocers Foundation. **The program is designed to provide grocery store employees with training on the fundamentals of safe food handling.**

This updated version of the Pathway training materials, first created in the late 1990's, is thanks in part to a grant from the Ohio Department of Agriculture, the State of Ohio, and the United States Department of Agriculture under the provisions of the Specialty Crop Block grant.

The Pathway to Food Safety program includes both Management and Associate training on the most important issues in food safety. Lessons include: Personal Hygiene, Hand Washing, Preventing Cross-Contamination, Cleaning and Sanitizing, and Managing Time and Temperature. The program also contains a lesson specific to Food Safety Management for Locally-Produced Specialty Crops.
